Re: Commendation – Robert Sherwood

Dear Mr. Dahler:

It is my pleasure to express appreciation on behalf of the City of Eustis for assistance we received from Robert Sherwood, a member of your welding team.

Robert has completed several projects for the City of Eustis, including band structures for the Eustis First Friday events and ADA handrails. In doing so, he demonstrated leadership that showcased his superior aluminum fabrication and welding skills.

These projects were time-sensitive, and Robert not only completed them within the limited timeframe, but also provided a top-quality product. His efforts saved the city a great deal of money—which is especially important during times of limited funding—and allowed us to provide important recreational services to our citizens.

We greatly appreciate Robert's professionalism and courtesy, and thank you and Lake Tech for the valuable services you provide to the community.

Sincerely,

  
John Futch  
Director of Public Works
